

## Admin

- Users: Add and Edit users within a program that can be assigned to different roles, like Program Coordinator, Faculty, or Observer.
- Courses: Add and Edit Courses and their existing Offering s. Able to see and edit Students, Outcomes, and only see assessments of an Offering.
- Outcomes: Add and Edit Outcomes within a program.
- Students: Add and Edit students within Offerings.

## Program Coordinator

- Assessments: Add and Edit Assessments within a Program/Offering, such as grading methods, performance criteria, and Outcomes association.
- Courses: Add and Edit Courses and their existing Offerings in Programs that the Coordinator moderates. Able to see Students or see and edit Outcomes/Assessments of an Offering/Course.
- Outcomes: Add and Edit Outcomes within a program.
- Instructors: Add and Edit instructors and the Courses associated with them.

## Faculty

- Courses: Add and Edit Courses and their existing Offerings. Able to see and edit Students, Outcomes, and only see assessments of an Offering.
- Metrics: Add and Edit Metrics within a Offering, this includes assignments and other assessment methods.
- Students: Add and Edit students within Offerings.

## Observer

- Courses: See Courses and their existing Offerings. Able to see Outcomes and Assessments of an Offering.
- Outcomes: See Outcomes within a Program/Course.

Users

List of Users organized by program. Able to add and edit Users and their permissions. Able to delete Users without any Courses attached to them.

Courses

List of Courses and their Offerings organized by Program and Semester. Able to add and edit Courses/Offerings. Able to delete Courses without any Offerings attached to them.

Students

List of Students organized by Program, Semester, Courses, then Offerings. Able to add and edit Students. Able to delete Students without data associated to them.

Outcomes

List of Outcomes organized by Program/Courses. Able to add and edit Outcomes. Able to delete Outcomes without data associated to them.
